PROFILE

Full-Stack software engineer, living in Leicester, with 7 years experience across React, Next.js, Node.js, serverless and AWS microservices following Agile principles. Skilled in building scalable, user-centric applications with clean architecture and strong testing practices. Collaborative, pragmatic, and committed to continuous improvement. I enjoy experimenting with new technologies and building [personal projects](#) to test ideas and keep my skills sharp.

SKILLS

- **Front-End:** JavaScript, React, Next.js, Redux, basic TypeScript, Material UI
- **Back-End:** Node.js, Express, AWS microservices, REST APIs, SQL, MongoDB
- **Practices:** TDD, CI/CD pipelines, Agile, pair programming
- **Tooling:** Git, Jest, React Testing Library, Postman, Knex

EXPERIENCE

Full-Stack Software Engineer (mid-level) — [cromwell.co.uk](#)

June 2021 – Present

- Delivered 20+ production features across React/Next.js and Node/AWS
- Collaborated with BA, UX/Design and QA teams to deliver predictable sprint outcomes
- Built and maintained serverless functions using AWS Lambda and API Gateway
- Improved performance and reliability of key ecommerce flows
- Increased test coverage using Jest and React Testing Library
- Refactored legacy components to improve maintainability
- Mentored junior engineers, providing guidance on best practices and problem-solving

Full-Stack Software Engineer (junior) — ontrackms.com

Feb 2019 – June 2021

- Built and maintained features for a large project-management platform
- Improved system reliability and optimised SQL queries
- Developed reusable UI components in Vue/Angular
- Contributed to back-end development using Node, Express, MySQL, PHP

Full-Stack JavaScript Bootcamp — Constructor Labs

Sept – Nov 2018

- Intensive 12-week programme building applications using JavaScript, React, Redux, Node, and Express
- Developed strong foundations in problem-solving, pair programming, and agile delivery

Self-Learning & Volunteering

May – Aug 2018

- Studied JavaScript: Udemy, FreeCodeCamp, Codewars
- Volunteered for local charity, maintained their website, and designed printed publicity.

Heruka Kadampa Meditation Centre

- **Administrative Director** (2014 – 2018)
- **Education Programme Coordinator (EPC)** (2008 – 2014)
- **EPC Assistant** (2006 – 2008)

Gained strong leadership and operational experience across events, facilities and team coordination. Managed digital and print marketing campaigns, including website development. Oversaw weekly classes and large-scale events, producing promotional materials. Strengthened communication, problem-solving and relationship-building skills.

EDUCATION

- **Full-Stack JavaScript Bootcamp**, Constructor Labs
- **Diploma in Interactive Multimedia**, Westminster Kingsway College
- **BA (Hons) Fine Art, Painting**, Central Saint Martins College of Art & Design
